

## Student Spotlight: Mingze Liu at Widener University

**Country:** China  
**ISC Programme:** PMP  
**Has Progressed to:** MBA

What I like best about Widener's business school is that all the teachers are very patient with international students. Whenever I sent them emails asking about assignments, they always replied quickly. I learned so much from them, not just business knowledge but also about American culture. The professors take a very practical approach to teaching. In one of my classes, we did a lot of role-plays to learn how to handle certain issues in the real business world. This definitely improved my professional knowledge, and makes me more confident to take on a job after graduation.

## Student Spotlight: Stephanie De Almeida Giuberti at Roosevelt University

**Country:** Brazil  
**ISC Program:** Pre-Master's Program

### WHY ROOSEVELT?

I've been working for ten years in Brazil, but I decided to make a career shift. An MBA gives me a lot of knowledge and helps build a bridge to a new life and a successful career. I'm here at Roosevelt because if I want to work at an international company, I have to know about other cultures and how to respect them. I think I'm getting maturity and knowledge to work at this type of company.

### LOCATION

Roosevelt is in the middle of everything. The view here is very nice. I'm in the perfect place. I like being here.

### STUDYING AT ROOSEVELT

The best thing about studying in Roosevelt is that it is making me more confident. It gives me the opportunity to see different people and cultures and how to respect these people. I think it's preparing me on how to be a good leader. The experience that I have here makes me a better person. I can use all of the experience that I am having here in my career and in my company. I feel prepared.

I have made different international friends and now I have made American friends through my MBA, which is so cool. It is how I imagined this.

### ISC

The staff at the International Study Center are very friendly and helpful. When I arrived here, I was very nervous, but studying at the International Study Centre helped me to relax. The staff helped me feel like home and said that they were there for whatever I need. They help you to develop your skills, and if you have any questions about anything you can ask them. It's so nice. They are lovely and helpful.

### CHICAGO / LOCATION

I like Chicago because it is a big city. I like the lake. Seeing it in the morning makes me feel relaxed. Chicago has a lot of things to do. In the summer they have a lot of concerts in the Millennium Park that are free. It's a diverse city. I like it. Chicago also has a lot of businesses and opportunities for me to find a job or internship.

## Student Spotlight: Xiaotian Tang(Zoe) at Texas A&M University Corpus Christie

**Country:** China  
**University degree:** Accounting

### Lifestyle

I feel it's really different to China, but that you also can find some things similar, like the friends here, you all help your friends and the family is like a small home here. But I like here because the weather is so comfortable. I like the beach, I like the ocean, it's really relaxed.

### Why TAMUCC

I feel it's really a good place for study, it's close to the water. Every time when I study I can just see the water behind me. I feel really relaxed and I feel a good emotion to study.

When I come here I feel really it's a good choice for me. I feel here it's a loud place, it includes the four seasons; they have snow, they have summer, I can go to the ocean and everything's here. For me, I feel like I have so much to do here, I can choose everything I want, every place I want to go.

I feel like I just become the real person, the real adult, I just feel grown up. The most important thing, the one thing that made me feel grown up is when I got the car and I drove by myself, when my car has some problem and I can fix it myself. Also some other things I never think about before, like when I am at home I can change a bulb by myself, when I got my furniture I needed to make it by myself, by hand, like everything is a part and I needed to follow the instructions and I made it by myself. So I feel like I've got it, I did it. I feel here is my second home.

### Career

It's really helped me. I only have one more year to finish my undergraduate and I can look for another school for my master. I just want to keep going along the accounting road. I feel it's really my future. After I finish my master I want to study for the CPA exam, it's a major one for accounting and I feel if I have that one, I will be a master in my area.

### Favourite thing

Everything for me I chose by myself so I feel confident when I am doing something right and I needed to take my own responsibility when I do something wrong. It's freedom. More fun, more friends, different friends, different culture. I feel it's really teaching me more things.
